

HYUNDAI IT

LEARN. PRESENT. INSPIRE.

With Hyundai IFPD

Smart Board for the smart generation Designed with latest technology and precision featuring in built camera and mic for smooth display, effective presentation and learning

Hyundai IT is the market leader in the **Digital Signage Industry.**

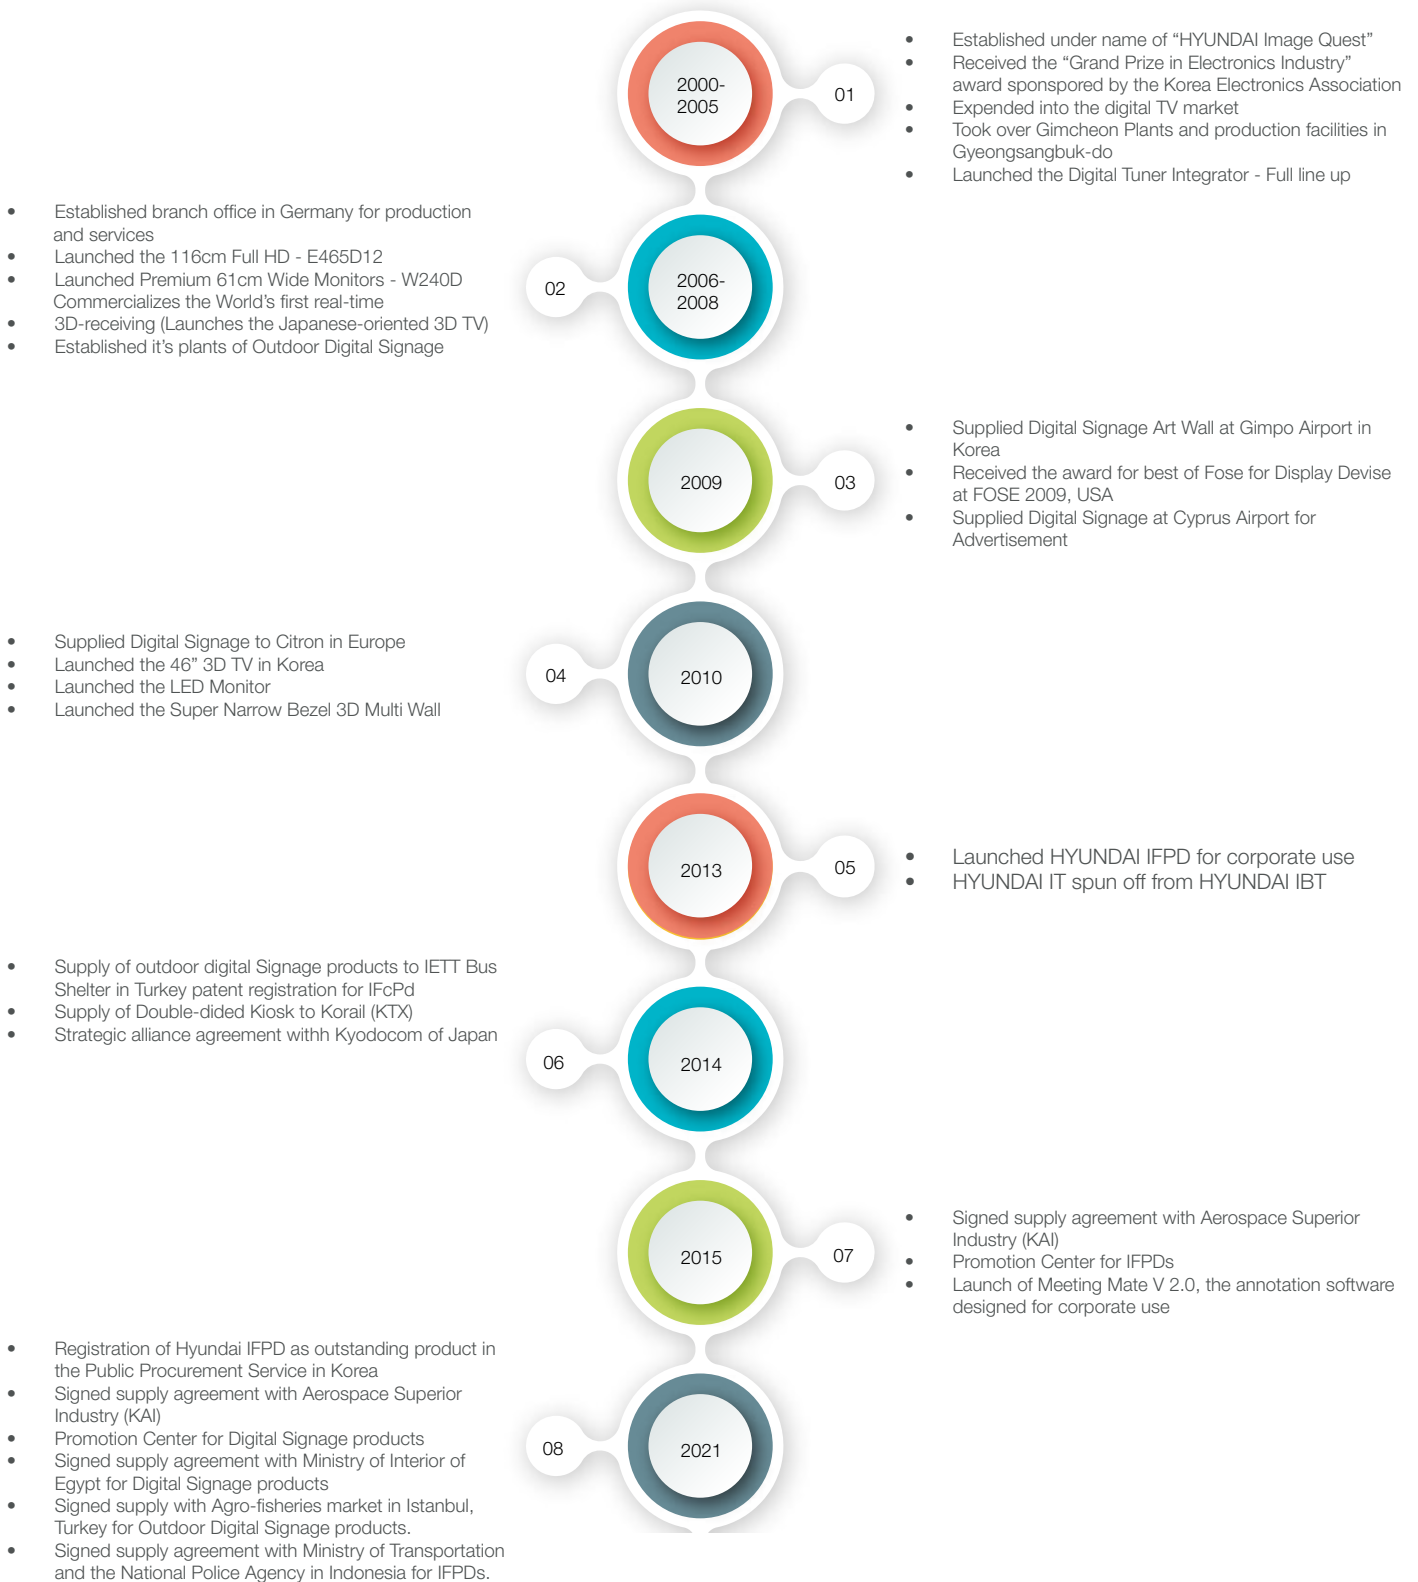

Hyundai IT has accumulated the technology knowhow for more than 20 years in the Digital Signage industry.

Hyundai IT is manufacturing and supplying the display monitors to the major ministries in U.S., and proud of its achievement to market the world's first real-time 3D broadcasting TV. In the field of digital signage, Hyundai IT has extended its market share and competitiveness by introducing innovative technologies in the outdoor display; revolutionizing the product quality & reliability. For over 3 year, Hyundai IT has been focused on the development of the Smart Office solution and has introduced the IFPD for corporate use.

Continual improvement and the "go beyond" mindset are important parts of our corporate culture. We spend a lot of time recruiting and training the right people and collecting the best practices and ideas in order to develop products that can be differentiated from others, primordially to survive in this ever-changing environment.

Corporate Profile

Hyundai IT is a digital display company that has accumulated 20 years of know-how. It has proven its display technology by manufacturing and supplying display products to major government departments, and corporations world-wide.

Constantly evolving to meet your standards and satisfaction!
